PANEL THERMOSTAT MODULE

VM148

central heating

airconditioning

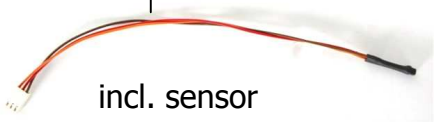

incubator

Relay contact (NO) 3A .

9 –12 V DC.

incl. sensor

Features:

- ☑ General purpose panel mount thermostat.
- ☑ Usable for heating or cooling purposes, (central heating, airco, incubator,…)
- ☑ Separate output-ON and output-OFF setting (hysteresis)
- ☑ Direct manual temperature adjustment.
- ☑ Bright red LED read-out.
- ☑ Comes with easy board-to-wire connectors and sensor (20cm wire).

Calibrate option

Specifications:

- Temperature range ℃: -18°C à + 60℃.
- Temperature range ℉: 0°F à +146℉
- Temperature resolution: +/- 0,5℃ or +/- 2℉
- Accuracy: +/- 2℃, fine tune till +/- 0,5℃
- Readout update interval: 1 sec.
- Relay contact: NO - 3A (max 230V).
- Power supply: 9 - 12V DC.
- Power consumption: < 70mA.

Under– and overflow indication

dimensions:

- panel module: 67 x 40.5 mm. (2.6" x 1.6")
- cut-out: 54 x 37 mm. (2.1" x 1.5")
- mounting depth: 40mm.(1.6")
- weight: 50g
